Introduction & Platform Overview

DIGITECHCOIN HUB 2.0 is a global skill intelligence ecosystem where participants earn DigiCredits by completing skill challenges and demonstrating measurable ability. Talent Plus members can redeem their DigiCredits worldwide via mobile money, bank transfer, or cryptocurrency.

Core Features

Getting Started: Registration & Login

You can register directly from our homepage — no invite required. If a friend referred you, use their referral code (or click their link, which fills it in automatically) so they earn their referral bonus when you activate your first membership.

Step-by-Step Registration

1. Account Details

Go to [register.html](#). Select your Country (searchable list with flags), enter your Phone Number, add a Referral Code if you have one, then click Next: Set Password.

2. Security & Info

Set a Password (min 8 characters, not all numbers) and confirm it. Enter your Email. Optionally add WhatsApp. Agree to the Terms, then click Review & Register.

3. Review & Create

Verify your details, then click Create My Account.

4. OTP Verification

A 6-digit code is emailed to you. Enter it in the popup — you are redirected to your Dashboard automatically.

Login

Go to [register.html?mode=login](#). Select your country code, enter your registered phone number and password, then click Sign In to Dashboard.

Enter your number without the leading 0 — the country code is selected separately. After 5 failed login attempts your account is locked for 15 minutes.

Important Challenge Rules

Challenge	Rules
Quiz Rules	No tab switching — detected server-side, voids the attempt. 20-second timer per question. No earnings on Sundays. Daily limit shared between Image Intelligence and Trivia Arena.
Ludo Royale	Roll a 6 to release a token. Land on an opponent to send their token home (unless on a safe square). First to get all 4 tokens home wins.
8-Ball Pool	Aim with the cue (longer hold = more power). Pocket all your balls, then the 8-ball. Fouls give ball-in-hand to your opponent.
Daily Limit	24-hour rolling window from your first challenge of the day — not a midnight reset.

Referral Programme

How It Works

Step	What happens
1	Every user gets a unique referral code
2	Share your code or link with friends
3	Your friend registers using your code
4	When they activate Talent Plus, you earn a referral bonus in DigiCredits
5	Bonus is added to your referral wallet

Example: your friend activates Level 1. Your referral bonus is credited automatically to your referral wallet — full bonus details are shown in your dashboard.

Find Your Referral Code

Dashboard → scroll to the INVITE FRIENDS card → click REVEAL to show your code → copy the code or share the link directly.

A note on fairness: organic visitors who sign up without a code are automatically credited to our top-ranked participant (by level, then DigiCredits) — a reward for the example our best members set.

9

Avatar Customization

Go to [avatar.html](#). Choose a category: Animals, Faces, Space, Warriors, Nature, Tech, Food, or My Photo. Click any avatar to preview it, then click **SAVE AVATAR**.

Custom Photo: JPG, PNG, WebP, or GIF up to 2 MB. Switch to the My Photo tab, choose your file, preview it, then click **USE THIS PHOTO**.

10

Transaction Ledger

The Ledger (ledger.html) provides a complete audit trail of all DigiCredit movements, a 30-day bar chart, and full CSV export.

4. Enter the code (expires in 1 hour; 5 attempts allowed).
5. Set a new password (min 8 characters), confirm it, then click Reset Password.

Change Password While Logged In

Dashboard → click PASSWORD in the top nav → enter your current password → enter the new password twice → click UPDATE PASSWORD.

12

Voice Chat Lobby & Moderation

Talk with other participants in real time. On `index.html`, find the Voice Lobby and click JOIN ROOM. Allow microphone access when prompted.

Button	Action
JOIN ROOM	Connect to the lobby (you start listening only)
UNMUTE	Turn on your microphone and speak
MUTE	Turn off your mic (still connected and listening)
LEAVE	Disconnect from the voice room

New accounts join listen-only: you can hear the room right away, and the microphone unlocks once your account is 24 hours old and you have completed at least 3 challenges. This keeps the lobby friendly.

Be respectful. You can mute any participant just for yourself, or report misconduct with the report button. Moderators may mute, remove, or temporarily suspend anyone who breaks the conduct rules. Use headphones to avoid echo.

13

Q: How often can I redeem?

A: As often as you like, but only one pending redemption at a time.

Q: Why did my quiz attempt get voided?

A: Tab switching is detected server-side and voids the attempt. Stay on the challenge page.

Q: Why can't I earn on Sundays?

Q: How does the daily limit work?

A: It is a 24-hour rolling window from your first challenge of the day, not a midnight reset.
